Notes on Exam 1

- I do not report averages, maxes, minimums, medians, or any other statistics on my exams. I think you should judge your work in terms of your own skills and expectations.
 - I also suggest that you not discuss your grade with your colleagues.
- I will return exams at the end of class.
- I should have time after class to discuss particulars.
- I'll talk about key issues, too.
 - Most of my notes can be found in a handout distributed in class.
