

CSC151.02 2014S, Class 16: Programming the GIMP Tools

Overview

- Preliminaries.
 - Admin.
 - Upcoming work.
 - HW questions.
 - Pre-quiz questions.
 - Quiz.
- Brushes: Something we didn't tell you in the reading.
- Lab!

Preliminaries

Admin

- A number of issues have put me significantly behind. I hope to be less behind by Monday. (You will get your exams back on Monday, as scheduled.)
- DrRacket wishes you a happy valentines day.
- Starting with the next HW, you can choose one of the following options (provided you fill in the survey)
 - Pick partners for me (pair or triplet or whatever)
 - Work by myself
 - Pick partners myself
- If you choose to participate in Harris, please be responsible.
- Extra credit:
 - Long-form improv 7:30 pm tonight in the wall (which wall and how you get into the wall is up to you to figure out)
 - ???

Upcoming Work

- No readings for Monday! We will just go over the exam.
- No Lab writeup for today (no matter what the schedule says)!
- Continue to work on the assignment.

Questions on the Homework

Pre Quiz Questions

Quiz

A Few Quick Things

- Today's lab reflects the original motivation for this model of the course.
- For *some* of the brushes (e.g. "2. Hardness 100"), you can also set the brush size.

```
(define canvas (image-new 200 200)) (context-set-brush! "2. Hardness 100" 20) (image-draw-line!  
canvas 30 10 30 190) (context-set-brush! "2. Hardness 100" 30) (image-draw-line! canvas 60 10 60  
190) (context-set-brush! "2. Hardness 100" 10) (image-draw-line! canvas 80 10 80 190)  
(context-set-brush! "2. Hardness 050" 20) (image-draw-line! canvas 110 10 110 190) (image-show  
canvas)
```
