

CSC151.02 2014S, Class 43: Randomized (Unpredictable) Drawing

Overview

- Preliminaries.
 - Admin.
 - Questions.
- Random art.
- Why use randomness.
- The random procedure.
- Simulation.

Preliminaries

Upcoming Work

- No reading for Friday. Friday will be a chance to work on projects and ask questions and such.
- Homework for next Tuesday: Projects.
- Lab writeup: 3 and 4.

Admin

- Congrats to TZ for his election to PBK..
- Thanks for patience yesterday.
- Mentor sessions tomorrow night at 7pm and 9pm.
- There was a mixup on the due date of the third exam. It is due Tuesday of week 13. The compensation is that you don't have work due in week 14. (You still have to show up and learn stuff, and we might have a quiz, but you won't have an assignment due.)
- Friday's quiz will be on the obvious stuff (vectors, analysis, hop, and randomness)
 - We'll try not to put everything on the same problem.

Extra Credit

- CS extra Thursday: Charlie Eddy on his project.
- CS pub night Thursday at 8pm in Lyle's pub.
- Get and wear one of the "1 in 4" shirts next week. Pick up shirt Tuesday through Thursday, wear on Friday.
- Any other Sexual Assault Awareness Week activity.
- Iowater project April 19 - Tag drains. Mail [iowater] for details.
