Class 02: Linux Basics

Held: Monday, 30 August 2010

Summary: We continue our exploration of Linux through hands-on exercises.

Related Pages:

- EBoard.
- Lab: GNU/Linux II.

Notes:

- Assignment 1 is ready.
- For today, you should work together, but at neighboring computers. (There are some exercises that require a partner.)

Overview:

- Review.
- Lab!

Review

- What were the important commands you learned last class?

Laboratory

- Yay! More hands-on explorations with Linux.
- Be prepared to reflect.
