

Class 18: Control Flow: Conditionals (2)

Held: Monday, 27 September 2010

Summary: We consider all three forms of conditionals in C.

Related Pages:

- EBoard.
- Reading: K&R 3.4.

Notes:

- Reading for Tuesday: K&R 3.5-3.6.
- New reading requirement: By 9 p.m. the night before the reading is due, send me a note about what you found most difficult. I will try to cover those issues in class the next day.
- I will reserve time at the start of class for questions on the exam.

Overview:

- If statements, revisited.
 - Conditional expressions.
 - Case statements.
