

## **Class 51: Designing More ADTs: Stacks and Queues**

**Held:** Wednesday, 1 December 2010

**Summary:** We consider two important ADTs, the stack and the queue, and generalizations of those ADTs.

**Related Pages:**

- EBoard.

**Notes:**

- Does anyone want to be on the “CS Students” mailing list?
- How I know I’m in the wrong business: The rumored Google/Groupon deal.
- Cool convo tomorrow.
- Cool CS Extra tomorrow.

**Overview:**

- Stacks.
  - Queues.
  - Generalizing: Linear Structures.
  - Other Policies.
