CSC161 2011S *Imperative Problem Solving*

Class 09: Types and Operators, Continued

Held: Monday, 7 February 2011

Summary: We continue our exploration of C's basic types.

Related Pages:

- EBoard.
- Lab: More Types.
- Reading: K&R 2.7-2.8, 2.10-2.12.

Notes:

- Assignment 3 is now posted. It's more of a writing assignment than a coding assignment.
- Reading for tomorrow: K&R 7.1-7.4.
- EC for attending the final home basketball games of the year, wearing black, and doing the Dougie. (Yes, you have to do all three.)
- Thanks for all the good questions. I won't be able to address all of them, but I'll try.

Overview:

- Types of Integers.
- Unsigned vs. Signed Integers.
- Strings.
- `atoi`.
- `squeeze`.
