# CSC 207 2014S: Extra Session, Week 11

Overview

- Admin
- You ask questions.
- I try to give answers, or at least direct you in the right direction.

Admin

- CS pub night tonight. Yay!
- CS table tomorrow.

## How would a skilled Java programmer implement a JSON parser?

- Some might look to use some of the fancy string tools for parsing.
- Some might use introspection to build classes.

## How will anonymous procedures work in Java 8?

- Go to last week's CS table.
- Read the Dr. Dobbs article and the Java Tutorial pages I sent out last week.
