

Class 22: Haskell (1)

Held: Monday, 14 March 2011

Summary: We begin our study of Haskell, a pure, lazy, functional language.

Related Pages:

- EBoard.
- Lab: Haskell (1).
- Reading: Tate 8.1-8.2.

Notes:

- This is Glorious Haskell Week.
- I anticipate distributing the mid-semester exam on Wednesday.
- Sorry for the confusion on the drop-box for assignment 7. Email was fine.
- I brought you back a bit of swag from the conference.
- The videos should be on reserve in Burling.

Overview:

- Haskell: An Introduction.
- Lab.

Haskell

- What do you see as Haskell's distinguishing features (at least on the first day)?
- What do you see as potentially problematic implications of those features (at least on the first day)?

Lab

- Do The first Haskell lab.
- Be prepared to reflect.
