## Playing and brainstorming

*Suppose there's a feature of the GIMP that I want to use, but I don't see it in MediaScript. What do I do?*

Under the 'Help' menu in GIMP, you'll see a 'Procedure Browser'. All of those procedures are available, but require deeper understanding of GIMP. If you see some that are of interest, but you can't figure out, talk to me.

*Can I select a polygon?*

Yes, with `image-select-polygon!`

```
(image-select-polygon! 4 REPLACE
  (position-new 10 10)
  (position-new 150 40)
  (position-new 75 75)
  (position-new 40 80))
```

*Can I ask you other questions?*

Yes.
